This report may not be displayed, reproduced, distributed, transmitted, or used to create derivative works in any form, in whole or in portion, by any means, without written permission from Cambridge Associates LLC ("CA"). Copying of this publication is a violation of U.S. and international copyright laws (17 U.S.C. 101 et seq.). Violators of this copyright may be subject to liability for substantial monetary damages. The information and material published in this report are confidential and non-transferable. Therefore, clients may not disclose any information or material derived from this report to third parties, or use information or material from this report, without prior written authorization. An authorized client may download this report and make one archival print copy. The information or material contained in this report may only be shared with those directors, officers, staff, and investment committee members or trustees having a need to know and with the understanding that these individuals will treat it confidentially. Violators of these confidentiality provisions may be subject to liability for substantial monetary damages, injunctive action, and all other remedies available at law or equity. Additionally, information from this report may be disclosed if disclosure is required by law or court order, but clients are required to provide notice to CA reasonably in advance of such disclosure.

This report is provided for informational purposes only. It is not intended to constitute an offer of securities of any of the issuers that may be described in the report. This report is provided only to persons that CA believes are: (i) "Accredited Investors" as that term is defined in Regulation D under the U.S. Securities Act of 1933; (ii) "Qualified Purchasers," as defined in Section 2(a)(51) of the U.S. Investment Company Act of 1940; (iii) of a kind described in Article 19 or Article 49 of the Financial Services and Markets Act 2000; and (iv) able to meet the requirements for investors as defined in the offering documents. Potential investors should completely review all Fund offering materials before considering an investment. No part of this report is intended as a recommendation of any firm or any security. Nothing contained in this report should be construed as the provision of tax or legal advice. Information contained herein may have been provided by third parties, including investment firms providing information on returns and assets under management, and may not have been independently verified. CA can neither assure nor accept responsibility for accuracy, but substantial legal liability may apply to misrepresentations of results made by a manager that are delivered to CA electronically, by wire or through the mail. Managers may report returns to CA gross (before the deduction of management fees), net (after the deduction of management fees) or both. Past performance is not indicative of future performance. Any information or opinions provided in this report are as of the date of the report and CA is under no obligation to update the information or communicate that any updates have been made.

Where referenced, the CA manager universe statistics, including medians, are derived from CA's proprietary database covering investment managers. These universe statistics and rankings exclude managers that exclude cash from their reported total returns, and for calculations including any years from 1998 to the present, those managers with less than US$50 million in product assets. Returns for inactive (discontinued) managers are included if performance is available for the entire period measured. CA does not necessarily endorse or recommend the managers in this universe.

Cambridge Associates, LLC is a Massachusetts limited liability company with offices in Arlington, VA; Boston, MA; Dallas, TX; and Menlo Park, CA. Cambridge Associates Limited is registered as a limited company in England and Wales No. 06135829 and is authorised and regulated by the Financial Services Authority in the conduct of Investment Business. Cambridge Associates Limited, LLC is a Massachusetts limited liability company with a branch office in Sydney, Australia (ARBN 109 366 654). Cambridge Associates Asia Pte Ltd is a Singapore corporation (Registration No. 200101063G).

CAMBRIDGE ASSOCIATES LLC U.S. VENTURE CAPITAL INDEX®

As of December 31, 2009

Period	End-to-End Pooled Mean Net to Limited Partners (%)*
One Quarter	3.25
One Year	2.95
Three Year	(0.29)
Five Year	4.35

Notes: Based on data compiled from 1,290 U.S. venture capital funds, including fully liquidated partnerships, formed between 1981 and 2009.
Returns are net of fees, expenses and carried interest.
Vintage year funds formed since 2006 are too young to have produced meaningful returns. Analysis and comparison of partnership returns to benchmark statistics may be irrelevant.
* Vintage year is defined as the legal inception date as noted in a fund's financial statement. As of 12/31/2009 there were a number of funds in vintage year 2009 that had not called capital.

DESCRIPTION OF PERFORMANCE MEASUREMENT METHODOLOGY

Cambridge Associates LLC (CA) has established a database to monitor investments made by venture capital and other alternative asset partnerships. On December 31, 2009, 1,290 U.S. venture capital funds from the years 1981 through 2009 were included in the sample. Users of the analysis may find the following description of the data sources, the CA classification process, and the calculation techniques helpful to their interpretation of information presented in the report:

1. Partnership financial statements and narratives are the primary source for information concerning partnership cash flows, portfolio company investments, and investor transactions.

2. The performance calculation solves for the discount rate (IRR) which makes the Net Present Value of an investment equal to zero. The calculation is based on cash-on-cash returns over equal periods, modified for the residual value of the partnership's equity or portfolio company's net asset value (NAV). The residual value attributed to each respective group being measured is incorporated at its ending value. The database accounts for transactions on a quarterly basis, but adopts annualized values for reporting purposes. The End-to-End performance calculation is similar to the IRR, however, it is measuring the return between two points in time. The calculation takes into account the beginning NAV, the quarterly cash flows and the ending NAV. All returns greater than one year are annualized.

3. Recognizing the alternative asset community's sensitivity to the distribution of information pertaining to individual fund investments, as a matter of policy CA only releases aggregated figures in its benchmark report.

4. Vintage year is defined as the legal inception date as noted in a fund's financial statement.

5. Definitions:
   a. The pooled mean aggregates or "pools" all cash flows and ending NAVs to calculate a dollar-weighted return.
   b. The arithmetic mean is the average of the discrete returns of each fund for a particular vintage year.
   c. The median is the middle fund return of the group of funds included in a vintage year.
   d. The equal-weighted mean equal-weights all cash flows and ending NAVs based on paid in capital to calculate a dollar-weighted return.
   e. The realization ratios described below are measures of return or contributed capital. Ratios are based on actual dollar values and not averages
      1) Distribution to Paid-In Capital measures the cumulative investment return relative to contributed capital.
      2) Residual Value to Paid-In Capital measures the amount of contributed capital still tied up in the equity of the fund.
      3) Total Value to Paid-In Capital measures the residual value and distributions received to date relative to contributed capital.
